# DE-MOUNT UNITS GS-E LINE

ZERO-EMISSION

## MACHINE DESIGNED FOR MULTIPLE JOBS:

- Application of products for phytosanitary protection and weed control, both in agricultural and urban areas
- Cleaning and disinfection
- Irrigation and water transfer

Thanks to their versatility it is possible to connect various accessories including different types of spraying lances, hose reels, depending on the pump chosen.

**EQUIPPED AS STANDARD** with **fresh water tank** (excluding models for irrigation and water transfer) usable in case of emergency when the operator accidentally enters in contact with chemicals (*in accordance with the latest safety standards*).  
The **system cleaning tank** (*optional, mandatory for professional uses for spraying and weeding*) allows the complete rinsing of the entire spraying system.

## TECHNICAL DATA

- ☑ Powder painted steel **frame**
- ☑ Polyethylene **tanks**
- ☑ EGO PU2710 **engine**
- ☑ **Pumps** to choose between AR252, AR30, AR403
- ☑ 56V - 12A - 672Wh Lithium **batteries** (on request).
- ☑ 230V **quick battery** charger (optional).

## HIGHLIGHTS

- ☑ Reinforced steel frame, powder coated resistant to wear over time.
- ☑ **Polyethylene tanks.**
- ☑ External level indicator well visible and easy to read.
- ☑ Filter with closing valve. Filter maintenance possible in each time of treatment even with a full tank.
- ☑ External valve for **tank emptying**: easy and immediate content drainage of the tank; absolute lack of contact with the chemical product.
- ☑ Possibility of assembling various types of hose reels and lances.
- ☑ **Excellent value for money among the best of the category.**
- ☑ Demountables, both with forklift and with crane.
- ☑ Machines built with criteria and in compliance with all the regulations in force.
